Internal pipe cleaner for pipe up to 900 mm

The Internal Pipe Cleaner is designed to clean the interior of pipes with an internal diameter from 9,5" to 35" to Ø 900mm. The tool has a rotating head and is driven by compressed air and equipped with a braking system. An adjustable centering carriage guides the tool through the pipe. The chart below shows the recommended centering legs, nozzle sizes, and compressor capacities for different pipe diameters.

The carriage fits the Internal Pipe Cleaner as one assembly. It consists of two collars, three two-wheel roller bars, and four sets of centering legs (6 legs p/set).

■ NOZZLE, CENTRING LEGS AND COMPRESSOR SIZE

Nozzle Size	Length leg - Diameter range	Compressor Size
Ø6 mm x 45 orifices	120 mm (Ø260 mm - Ø300 mm)	250 cfm / 250 cbm
Ø8 mm x 45 orifices	190 mm (Ø260 mm - Ø400 mm)	365 cfm / 10.5 cbm
Ø9.5 mm x 45 orifices	190 mm (Ø260 mm - Ø400 mm)	365 cfm / 10.5 cbm
Ø8 mm x 80 orifices	290 mm (Ø400 mm - Ø600 mm)	365 cfm / 10.5 cbm
Ø9.5 mm x 100 orifices	460 mm (Ø600 mm - Ø900 mm)	600 cfm / 17 cbm
