

VENTILATION SYSTEMS

PORTABLE VENTILATION FAN

Electric axial fan, 12" and 16"

Blastline Electric Ventilation Fans are highly efficient and portable, designed to ventilate air and harmful gases from tanks or work areas or to supply fresh air to spaces with improper ventilation. The bell-mouth type casing is optimized for efficiency, operates with minimal noise, and is easy to install in an air duct. Ducting tubes are sold separately.

FEATURES

- Built with quality materials for reliable performance
- Runs on standard electricity (AC power) for easy use
- Strong industrial fan specially made to handle tough conditions

SPECIFICATIONS

Size	12"	16"
Type	Axial Fan	Axial Fan
Electric Current type	AC	AC
Housing Material	M.S. (Powder Coated)	M.S. (Powder Coated)
Fan Material	Aluminium	Aluminium
Grill Material	Stainless Steel (316)	Stainless Steel (316)
Air Flow	65 m³/min	120 m³/min
Pressure	385 pa	700 pa
Speed	2800 rpm	2800 rpm
Electric Source	500 W, 220-240V	1200W, 220-240V
